

Bee Happy!

BEE HAPPY FINGERPRINT ART

1. Ask students to color or paint their beehive and the two bees on the printout.
2. Give each student a small paper plate with yellow fingerprint on it. Show them how to dip their pinky or thumb into the paint and press "bees" onto their printout.
3. Let dry.
4. Give kids a thin, black, washable marker and show them how to add each bee's strips, wings, eyes, antenna, and smile.
5. Compliment them on their inner artist and display their work in the classroom.
